Forging a global regulatory framework to provide assistance to aircraft accident victims and their families

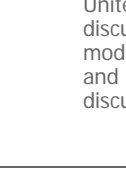

Safety is a top priority for ICAO and the global air transport network, and we have seen remarkable advancements throughout the sector. Our 2022 Safety Report presented a detailed analysis of global civil aviation safety performance for 2021 operations, revealing a decrease in global accident rates.

Looking to learn how to assist aircraft accident victims and their families?

ICAO

Mark your calendars for the 12-14 of March 2024 for an exciting event that brings together the world's leading minds from States, industry, and academia. The theme of the Innovation Fair is "Digital Aviation: The Future is Now."

Be a part of thought-provoking discussions as we explore the impacts of digitalization on aviation and the United Nations Sustainable Development Goals. Our distinguished panelists will delve into numerous discussions on topics including information management, the use of AI (artificial intelligence) and advanced modelling for aviation, passenger experience, or digital transformation. Risks inherent to digitalization, ethics and societal challenges will also be addressed. The Fair will feature diverse formats, including panel discussions, start-up roundtables and presentations from students on relevant research areas.

Introducing Our New Aerodrome Operational Management Course!

ICAO

E-Learning Newsletter

NEW COURSE!

Overview of Aerodrome Operational Management

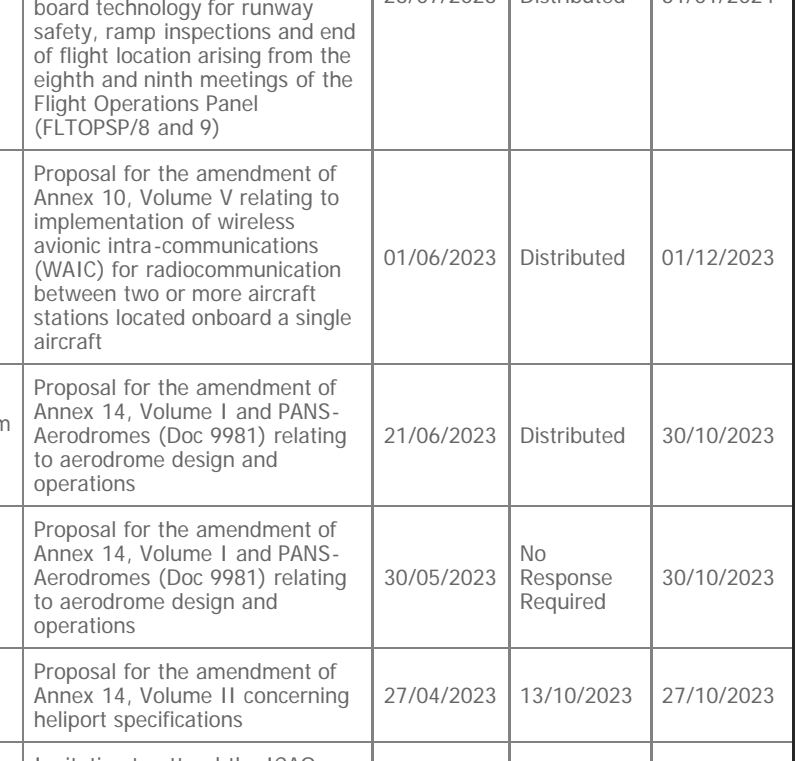

We are excited to introduce this new self-paced course designed to equip you with the knowledge and skills necessary to excel in the dynamic world of aerodrome management. Our online course provides a comprehensive overview of the intricate world of aerodrome certification, operational management, and stakeholder coordination.

Fly high with ICAO's Training Newsletters!?

ICAO

Interested in learning more about our training news and course offerings?

Keep up with aviation training by signing up for the ICAO Training Newsletters! Select training based on your interests and receive updates on our self-paced courses alongside our instructor-led training designed for you in the following areas:

- Aerodromes
- Air Transport
- Aviation Management
- Aviation Law
- Environment
- Air Navigation Services
- Flight Safety and Safety Management
- Training Competency Development
- Security
- Facilitation

NATCA Applauds Introduction of Air Traffic Controllers Hiring Act of 2023

NATCA commends Senators Braun (Ind.), Klobuchar (Minn.), Marshall (Kan.), Shaheen (N.H.), Luján (N.M.), and Boozman (Ark.) for introducing the Air Traffic Controllers Hiring Act of 2023, common sense legislation to address the critical shortage of fully certified air traffic controllers by requiring the FAA to conduct maximum hiring over the next five fiscal years.

CANSO-EUROCONTROL Sustainable Skies Conference – Contrails in Focus (7-8 November 2023, Brussels)

EUROCONTROL and CANSO have teamed up to offer a joint event – the CANSO-EUROCONTROL Sustainable Skies Conference: Contrails in Focus – at EUROCONTROL's headquarters in Brussels, Belgium, on 7-8 November 2023, with livestream also provided for those who are unable to attend in person.

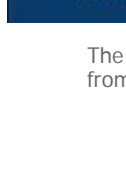

A must-attend for anyone interested in aviation sustainability, our joint 2-day event will be bringing together scientists, researchers, the aviation industry, policymakers and key stakeholders to tackle the complex issue of contrails, in particular:

- taking stock of the science behind contrails and contrail formation
- exploring the very latest methods used for contrail/cirrus cloud detection, monitoring and formation prediction
- examining how contrails/cirrus clouds impact our climate, and their interdependencies with CO₂ emissions levels
- discussing ongoing research and innovative solutions that the industry is working on to minimise contrail formation – and the challenges of operationalising mitigation measures at scale.

Join a global audience of practitioners and get up to speed on the very latest scientific insights into contrails, and what is being done to tackle them.

EUROCONTROL Aviation Learning Centre webinars and events

Learning Zone

Dear Webinar attendees,
We are pleased to invite you to the webinars which will take place in the coming weeks.

Licensing and integrating a flight demonstration return from space into airspace operations

- **Date and time** : Wednesday 27/09/2023 - 10:00 CEST
- **Duration** : 60 minutes
- **Presenter**: **Sebastian Klaus** : CEO and Founder @ ATMOS Space Cargo

[REGISTER HERE](#)

Atmos Space Cargo GmbH is a European NewSpace startup led by 4 Co-Founders with extensive experience in aerospace engineering, aviation, space missions and recovery. Atmos aims to enable life sciences research, development and production in Low Earth Orbit. To bring biomedical payloads back from space to the end-users on Earth, e.g. the pharmaceutical industry, the Atmos Phoenix vehicle needs to re-enter the atmosphere. This poses unique challenges in terms of integration with airspace. Atmos is aiming at a first re-entry by the end of 2024.

This webinar covers in 3 events the story behind Atmos and the unique challenges of atmospheric re-entry, the current state of licensing and exchanges with stakeholders especially in airspace control, and a future outlook on the seamless integration of air, space and maritime traffic. The space industry is booming, and to enable further growth, close coordination between stakeholders in space and in airspace is crucial.

Agenda

In the second part of this webinar series, we will focus on the legal and operational challenges of conducting a return from space – from legal aspects, stakeholder and recovery operations to the path forward to first return by the end of 2024.

2023 LSSIP+ Webinar for Newcomers

- **Date and time**: Thursday 28/09/2023 - 10:00 CEST
- **Duration**: 120 minutes
- **Presenters**:
Itsaso Zalba Marcos: Senior Monitoring Expert @ EUROCONTROL
Javier Rosendo: ATM Modernisation (Planning & Monitoring) Expert @ EUROCONTROL
Maria Lenne Van Wegberg: Senior Expert Planning and Support @ EUROCONTROL
Mariya Koleva: Head of Planning and Support Unit @ EUROCONTROL
Nicola Viceconti: ATM Planning Expert @ EUROCONTROL

[REGISTER HERE](#)

"LSSIP+ Webinar for Newcomers" consists of a lecture of a maximum of two hours via WebEx, including a Q&A session, with the aim of facilitating LSSIP+ related work during the 2023 cycle.

During this session, newcomers are introduced to ATM modernisation processes of planning, reporting and monitoring, the ATM Master Plan (Level 3) and the LSSIP+ process details.

If you are interested, or if you think somebody in your State would benefit from it, you are welcome to watch the recording.

Overview of the changes to Commission Regulation (EU) 2015/340

- **Date and time**: Friday 29/09/2023 - 10:00 CEST
- **Duration**: 90 minutes
- **Presenter**: **Bogdan Braguta**: Senior Safety Expert @ EUROCONTROL

[REGISTER HERE](#)

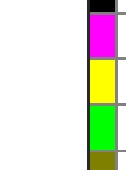

Regulations have been published amending Commission Regulation (EU) 2015/340 that lays down technical and administrative procedures relating to air traffic controller licences and certificates. This webinar provides an overview of the changes to this Regulation resulting from Commission Regulations (EU) 2023/203 and 2023/893.

Our webinars are open for registration

Feel free to share this email with your colleagues!

That Was The Week That Was 11-15 September 2023

Aviation Advocacy

It's bring your purple ink to work week!

We were blessed, purpled, and we work with an outbreak of purple prose! Was it the relaxing effect of the summer break, or the late summer languorous heat that stirred the creative juices? What induces purple prose – apart from purple ink, of course? In China, only the emperor was allowed to use red ink. To this day, calligraphy teachers use it to correct and encourage brushwork. Whilst you may think that the line between red and purple ink is fine, this week, the week that was, we were standing clearly on the purple side of that line.
